**Experiences:**

- Well-trained and experienced in different areas of urology with special interest in endourology, andrology (infertility and erectile dysfunction) and pediatric urology, in addition to conventional urology and other areas. Indulged in very busy general urology practices, since 1988, gaining experience in different areas of urology and andrology. Among these, but not limited to, are:
  1. Conventional surgeries (renal, ureteral, bladder, prostate and urethra).
  2. Pediatric urologic surgery (e.g. hypospadias, epispadias, UDT, UPJ, VUR, ureterocele).
  3. Endourology (e.g. TURP, TURBT, VIU, URS, PCN).
  4. Urologic Trauma.
  5. Andrology (e.g. ED, infertility, penile reconstructive surgery, repair of penile fracture, penile prosthesis and some microsurgical techniques).

**Thesis:**

- Thesis for M.D Degree titled: (Urologic Laparoscopy: Complications and Development of New Techniques).
- Thesis for Master Degree titled: (Fungus Infections of The Urinary Tract).

**Publications and Presentations:**

- Contributed in several book chapters published in USA and England e.g. Textbook of Endourology, Urologic Laparoscopy, Surgery on Call, 5 Minute Urology Consult (*see attachment*).
- Several publications and presentations in many well recognized journals and conferences in Egypt, KSA and USA (*attachment*).

**Training Courses and Conferences:**

Attended and participated in many conferences, workshops and training courses in Philadelphia, Pennsylvania; Atlanta, Georgia; Orlando, Florida; Las Vegas, Nevada; (USA), London (UK), Egypt and Saudi Arabia including courses and workshops of:

- Endourology, Ureteroscopy.
- Minimally Invasive Surgery.
- Lasers.
- Female Urology.
- Andrology.

**Clinical Practice and Training:**

- Participated in and supervised the urologic clinical and surgical practice in OPD, ER, OR and In-Patient.
- Training of house officers, residents, and junior staff in proper approach to diagnosis, decision-making, urological surgical training and follow up of patients.

**Teaching Experience:**

Participated in the following teaching activities (since 1991):

- Urology: pre and post-graduates.
- Clinical Urology: pre and post-graduates.
- Evaluations and examinations (urology): pre and post-graduates.
- Evaluations and examinations: Urology residents.

**Academic and Research Activities:**

- Expert Reviewer in the Gold Journal “Urology”, Baltimore, MD, USA.
- Participated in various research projects.
- Participated in supervising M.Sc and M.D. thesis for post-graduates.
- Attended, participated and shared preparation and organization of many meetings, staff round, workshops, and monthly urology and journal clubs in Egypt, KSA, and USA.

**Computer Knowledge:**

- Very good working in most **Windows®** based software programs, including image processing, and use of **Internet**.

**Language Skills:**

- **Arabic** : Mother language.
- **English**: Good command (speaking, reading, and writing).
